## Step 1: What is a Fraction?

Teaching note: We recommend this resource is printed in colour.

## National Curriculum Objectives:

Mathematics Year 4: (4F2) Recognise and show, using diagrams, families of common equivalent fractions

## Differentiation:

Developing Questions to support recognising and naming unit fractions up to and including twelfths, using objects, shapes and number lines which include scales. Expected Questions to support recognising and naming unit and non-unit fractions up to and including twelfths, using objects, shapes and number lines which include scales. Greater Depth Questions to support recognising and naming unit and non-unit fractions up to and including twelfths, using mixed objects, mixed shapes and some indication of scale.
