

Welcome to the fantastic world of SHIMMER GOBLINS

Here I will tell you what shimmer goblins' life is really like...

What do they eat?

Amazingly, shimmer goblins can make anything... For example, if they found some wild

herbs and wild vegetables they would turn them into a wild salad. And I can tell it would be delicious because I have tried one of their extraordinary dishes -- it's

like a bowl of sunshine in your mouth.

Ready for some more extremely incredible facts about shimmer goblins? Read on...

What do shimmer goblins look like?

They are surprisingly very good at making clothes. For example, if they found a pile

of rose petals they would turn them into a silky dress. But they would usually just wear sparkly clothes.

Their faces are quite beautiful. And they're really friendly and kind. They have thin arms and legs. They always have sparkly fingernails. And they are 57cm tall and 23cm wide.

What is their personality like?

More than anything they love to make up really silly jokes and puns.

Hobbies

Shimmer goblins love doing many things but I will only tell you the two biggest: playing tag and bouncing on trampolines.

Where do they live?

Interestingly, shimmer goblins live in three different places. The first one is jungles, the second place is woodlands and the third place is the craziest one of them all... it is humans' houses.

I know you're going to be thinking why do humans let a goblin into their house? Well, it's simply because humans love shimmer goblins!

Thanks for reading about shimmer goblins with me. Goodbye! Isabel Johnson
