# Draw 2-D shapes
**1** Draw two different squares.

**2** Draw three different rectangles.

**3** Draw three different triangles.

**4** Draw three different hexagons.

**5** Compare all your shapes with a partner's shapes. What differences can you see?

**6** Kim is drawing a 2-D shape.

My shape has 5 vertices.

Draw Kim's shape.

Is there more than one answer?

**7** Ben has drawn a 2-D shape.
He has spilt ink on his drawing.

What could Ben's shape be? _____

What shape can it **not** be? _____

How do you know?

**8** I have drawn a triangle.

Do you agree with Sam? _____

Why?

**9** Follow the instructions.

Read them all before you start.

- Draw a rectangle in the centre of the grid.
- Draw a square inside the rectangle.
- Draw a hexagon below the rectangle.
- Draw a triangle above the rectangle.

Make up some instructions like this for a partner.
