

Number Line to 100

1. Lucas has made a number line. Unfortunately, a strong wind has swept away some of his numbers. Complete the number line to show the numbers that have blown away.

VF

2. Help Alisha to estimate where her numbers should go by drawing an arrow from the number to the number line.

VF

3. The same number is missing from each number line. Use the numbers to work out which number is missing.

50 41 70

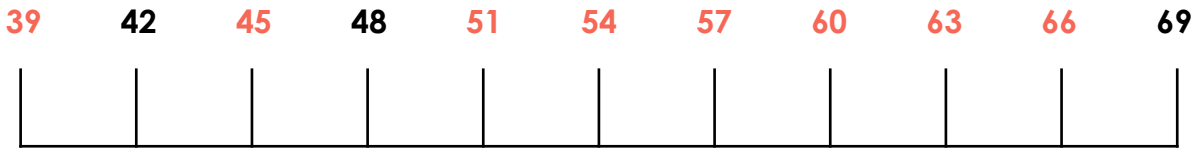

38 65 47
