

| Question | Answer |
|----------|---|
| 1 | <p>a)  The odd one out is a cube.</p> <p>b)  The odd one out is a cone.</p> |
| 2 |  |
| 3 |  <p>The cone and pyramid could stack at the top but other shapes could not be stacked on top of them.</p> |
| 4 | <p>The shapes have been sorted by whether they have curved surfaces or not. They have also been sorted by colour. Children are likely to notice colour first but should then be encouraged to look at the shape properties.</p> |
